RIVERTON AFRICA LTD

Creative Engineering Solutions

GROUP PROFILE 2023

RIVERTON AFRICA LTD

Creative Engineering Solutions

Forward from The CEO

We are an integrated engineering services group that is based in Tanzania - Africa and has adopted a multifaceted diversified strategy, by providing our customers with major benefits that range from; innovative engineering solutions, manufacturing, logistics, supply and value chain technologies.

We treat every client's project with the urgency and professionalism it deserves, as we go above and beyond the call of duty and we do our work on rational values that are the n§orms of the industries we serve.

We simplify science down to an art, that makes all those we interact with come back to us for more. Be our next client or pay us a visit.

Irene Mmbando

CEO

We are

RIVERTON AFRICA LTD
Creative Engineering Solutions

Riverton Africa is an integrated engineering services group that is based in Africa and has adopted a multifaceted diversified strategy, by providing our customers with major benefits that range from;

- innovative engineering solutions
- manufacturing
- logistics
- supply and value chain technologies.

we power Africa
from within.

Objective

With an objective to help light up Africa by providing world class quality electrical equipment and products, that are affordable and within reach to all our clients who actualize the dream by building the infrastructure needed.

We go all out to build an honest, trusting relationship with our clients as well as never forgetting that they have a choice and we are the very best of that choice they have.

We treat every inquiry as an opportunity not only to impress, but also to exceed our customer's expectations, as we build our reputation in providing the very best equipment and products available on the global market for achieving their desired solutions.

Philosophy

Focused Vision

... is to be the very best creative and innovative, integrated engineering service provider group in Africa.

Steadfast Mission

We leverage the potential of integrated engineering to empower people and businesses achieve their set goals. By providing high quality products and services that enriched with innovative, practical solutions, and actionable strategies.

Core Values

- Trust
- Dedication
- Innovation
- Reliability
- Credibility
- Quality.

work

We have a well organized and set-up organization, that allows work to flow fast and smoothly.

We have teams that are laser focused, on each individual project that we are entrusted to handle by our clients.

We provide all our staff with all the necessary tools and resources that they may require to complete their assignment in record time.

Our team produces a strategy for every project we are assigned by our clients, while identifying the critical success point/s for it and helping them implement them to the fullest.

01 Laison & communication

02 Select skills to fit the project

03 Team organization

04 Quality measurement

05 Business continuity

06 Safe working environment

07 No exposure to danger

08 Meet all commitments

09 Customer care

10 Financial management

11 Completion of the project inline with the contract specifications.

Manufacturing value and supply services

We are experts in providing superior value chain and value addition engineering services in East Africa in:

- Components Manufacturing with state of the art facilities in Bagamoyo Industrial Area.
- Sub-assembly production
- Warehousing and depot services with facilities in Bunju B and Kigamboni Dar es Salaam.
- Custom Assembly of Equipments on 700m^2 facility in Mbezi Juu ,Dar es Salaam
- Final Pack-Out
- Drop Shipment
- Kitting
- Sourcing
- Inventory and Stocking Programs
- Inspection and Certifications.

Our well set capabilities are geared to help our customers, to effectively cut all costs on products design and development, raw materials and labor. Thus reducing on lead time, product assembly time and an extended life on production lines.

Engineering construction services

With our strong team of professional engineers and powerful infrastructure we provide execution to engineering turnkey projects, of various complexities varying from design, execution, commissioning and maintenance on:

- Electrical Engineering Works
- Powerline Engineering Works
- Civil Works
- Building Works
- Ventilation, Refridgeration and Air Conditioning Works.

Smart Metering Services

smart metering

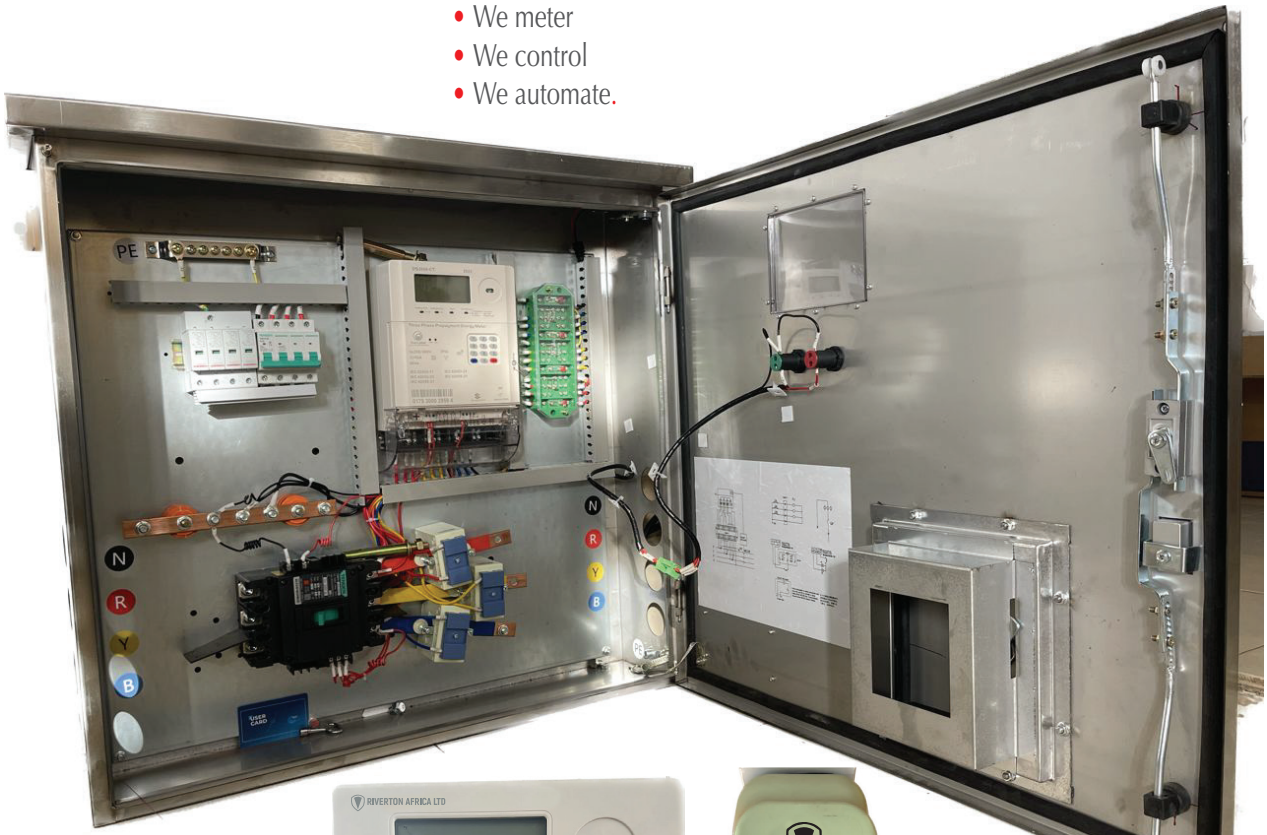

We provide an integrated solution that covers the entire smart metering value chain from the meter hardware to the cloud AI, we enable utilities to simplify their smart metering operations and run an efficient building and grid.

We have an excess of 100,000 smart meters hardware across East Africa under our cloud AI processing system.

There are many providers in this field but we have enough experience with electricity ,water, gas and HVAC smart metering, but what sets us apart is our mindset.

Our aim is to be a trusted partner who innovates with our customers and help them grow their business, streamline operations and adapt to future demands.

- We measure
- We meter
- We control
- We automate.
